CNY BLOOMING FLOWERS

INSTRUCTIONS

Step 1

Make the flower and write CNY wishes

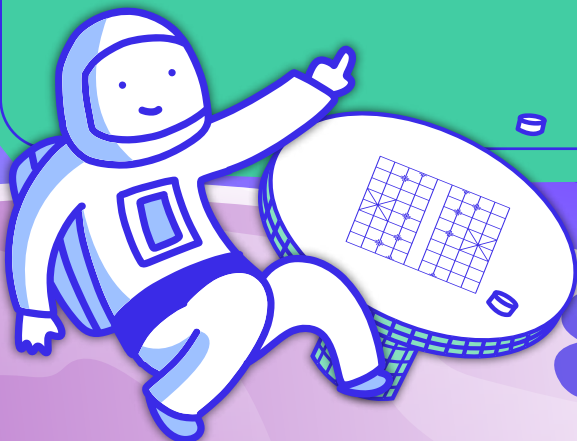

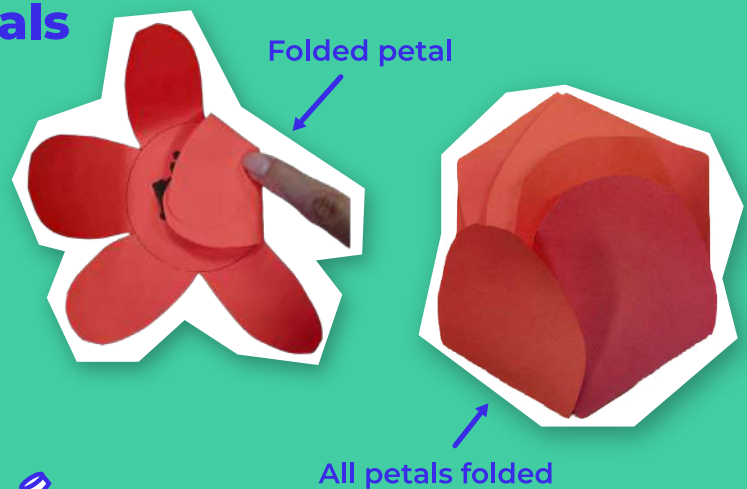

Use a marker or pen to draw a flower with six petals on a red coloured paper or hongbao. Ensure that it is around 8 - 10cm long and cut it out. Write an auspicious wish in the centre of the flower!

Step 2

Fold the petals

Fold the petals one by one, gently towards the centre. Do not press down too hard while folding.

Step 3 Watch it bloom!

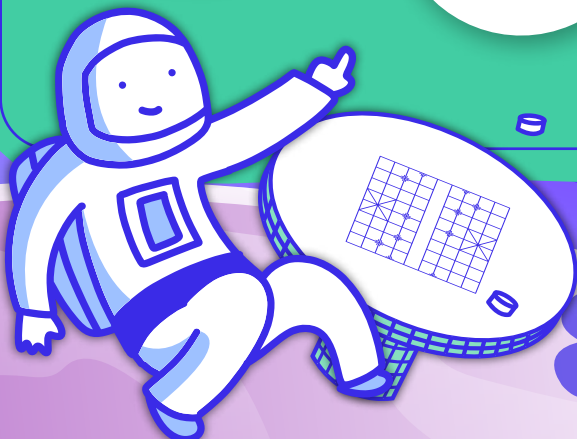

Prepare a tray with water, large enough to hold the fully bloomed flower(s). Place the folded flower gently on the surface of the water and watch the petals fully bloom!

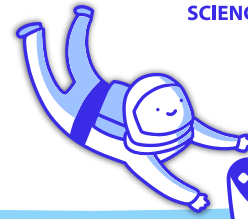

After
30 - 40 seconds

CNY BLOOMING FLOWERS

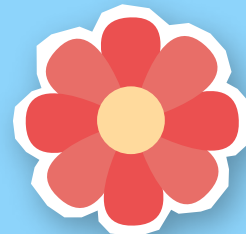

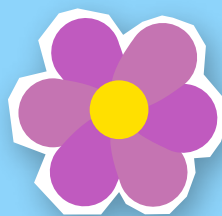

Why did it bloom?

This is capillary action at work. Water moves through tiny spaces in the paper without the help of gravity. As the paper absorbs water, it softens and causes the folded petals to slowly open.

TRY THESE OUT!

Cut out different number of petals and change up the sizes

Try different types of red packets to see if they all bloom the same!
