

# TIS THE SEASON TO REDUCE, REUSE, AND RECYCLE

## STEP BY STEP!

Create your own Christmas ornaments at home made out of recycled materials by following these simple steps!

1

Choose your base materials! Go for materials you already have at home like **toilet paper rolls** and **bottle caps**

2

Snip snip! Take one or more toilet paper rolls, cut them into smaller rings.

3

Glue the bottom of the rings together to create a wreath or a flower.

For the bottle caps, glue one side of each cap together to create a mini snowman.

# STEP BY STEP!

4

Start decorating!  
Use coloured markers to colour in your flowers.

Using your glue, stick on the glitter onto your bottle caps to make some colourful snowmen.

5

Using your wrapping paper, cut out fun shapes to stick onto the bottle caps.

6

Once everything has dried, use wine to create hanging loops for your decorations.

FINISH !

Finally, hang your beautiful decorations up on your tree!
